Southpoint Building Services

Southpoint Building Services at Bodalla on the beautiful South Coast of NSW is a family run business operating as a Company with Morgan Evans (Director) and was previously a partnership with MD and VA Evans for the past 10 years. Our family style environment allows us to maintain a close line of communication with our clients during the home building process and create long lasting relationships well after construction is completed.

The South Coast of NSW offers clients the opportunity to build homes in a variety of diverse environments, from unique bush land settings to picturesque coastal panoramas. Southpoint Building Services is at the forefront of building modern contemporary custom built homes to suit these environments as well as building homes to the highest standard.

Morgan Evans the builder is also dedicated to building energy efficient homes that focus on sustainability and protecting our environment. Morgan Evans is a qualified Thermal Energy Assessor.

The team at Southpoint is professional, skilled, attentive, knowledgeable and honest in all their dealings with our clients.

Our Mission

Building Excellence & Quality:

- Southpoint Building Services is a performance driven organization committed to being an industry leader in providing high quality, energy efficient and innovative design. We aim to provide exceptional workmanship and the building team is meticulous in their attention to detail when finishing a project. Our team of qualified professionals will bring your dreams to reality.

We aim to please:

- Our professional commitment and dedication to the unique requirements of each project is the hallmark of Southpoint's partnership with its clients. Your peace of mind is important to us so we will ensure the job is carried out in a professional and timely manner. .

We are people who care:

- The design and construction of your project is our business and our passion and we take pride in delivering you the best possible outcomes for your new home. We look outward and see challenges, opportunity and a future full of promise. We are an enthusiastic team and pride ourselves in keeping up to date with the latest in innovation and design.
